ARLINGTON, VIRGINIA 22209

SECURITY CLASSIFICATION GUIDE

for

TEAL PARROT PROGRAM

STRATEGIC TECHNOLOGY OFFICE

7 MARCH 1979

Prepared by:

Leland M. Nicolai
Leland M. Nicolai
Col, USAF
Acting Chief
Strategic Delivery Vehicles
Division

Approved by:

Donald L. Haas
Donald L. Haas
Director, STO

Approved by:

Robert R. Fossum
Robert R. Fossum
Director, DARPA

Section 2

Overall Effort

Identification

A. Any reference to the interest of DARPA in Cross-Section Reduction techniques is unclassified.

B. Any statement which refers to the TEAL PARROT effort in such a way as to reveal its objective, technological goals, or degree of attainment requires SECRET classification.

Unclassified Definition of TEAL PARROT. An advanced aerospace defense technology program.

Section 3

Administrative Data

<u>General Program Information</u>	<u>Classification</u>	<u>Comments</u>
A. Objective	S	Declassify - 20 Oct 1998
B. Funding	U	
C. Schedule	C	Declassify - 20 Oct 1983
D. Status (Relative to Schedule)	U	

Section 4

Studies

<u>Theoretical Studies</u>	<u>Classification</u>	<u>Comments</u>
Theoretical studies including calculation and experimental data.		Unusually significant scientific "breakthrough" should be classified "TENTATIVE SECRET", and so marked pending review.
(1) Not related to specific military application.	U	
(2) Related to specific military application*	S	Declassify - 20 Oct 1998

*When TEAL PARROT technology is applied to systems covered by their own security guide, nothing in this guide should be construed as allowing downgrading, i.e., when in conflict, the higher suggested classification will prevail.

<u>System Studies</u>	<u>Classification</u>	<u>Comments</u>
System studies revealing:		
(1) General or specific system concepts	S	Declassify - 20 Oct 1998
(2) Detailed description of system and system components	S	Declassify - 20 Oct 1998
(3) Performance requirements, capabilities, and limitations	S	Declassify - 20 Oct 1998
(4) Vulnerability to countermeasure	S	Declassify - 20 Oct 1998

Section 5

Performance and Capabilities

<u>State-of-the-Art</u>	<u>Classification</u>	<u>Comments</u>
Present state-of-the-art on TEAL PARROT related techniques, components, subsystems, and/or systems:		
(1) Not related to specific military application	C	Declassify - 20 Oct 1983
(2) Related to specific military application*	S	Declassify - 20 Oct 1998
<u>Component, Subsystem, and System Development</u>		
A. Nominal performance parameters when not associated with the military application	C	Declassify - 20 Oct 1983
B. External view (visual or photographic) if system performance or objectives are implied	S	Declassify - 20 Oct 1998
C. Detailed description or engineering drawings or data revealing performance when associated with military application*	S	Declassify - 20 Oct 1998

*When TEAL PARROT technology is applied to systems covered by their own security guide, nothing in this guide should be construed as allowing downgrading, i.e., when in conflict, the higher suggested classification will prevail.

	<u>Classification</u>	<u>Comments</u>
D. Test plans and schedules	S	Declassify - 20 Oct 1998
E. Test data		
(1) Raw, unprocessed data when not associated with formal, key, or other classified parameters	U	
(2) Analyzed data revealing capabilities, limitations, vulnerability to countermeasures, or when associated with the military application	S	Declassify - 20 Oct 1998

System Level Data Collection and Analysis

A. The fact that data are or are planned to be collected	C	Declassify - 20 Oct 1983
B. Raw, unprocessed data when not associated with formal, key, or other classified parameters.	U	
C. Analyzed Data	S	Declassify - 20 Oct 1998
D. Analyzed data revealing capabilities, limitations, or vulnerability to countermeasures.	S	Declassify - 20 Oct 1998

Section 6

Facilities

Facilities

A. Location of the site	U	
B. General description including system hardware, instrumentation and equipment normally at the site	U	
C. General description and external view (visual or photographic) of TEAL PARROT peculiar hardware, instrumentation, etc.	C	Declassify - 20 Oct 1983
D. Specific descriptions and external views of TEAL PARROT peculiar hardware which implies system performance or objectives.	S	Declassify - 20 Oct 1998

Section 7

Classification Justification

Notice that the declassification schedule for certain program information has been extended past 6 years to 20 October 1998. The justification for this additional safeguarding is in accordance with DOD 5200.1R and is because certain TEAL PARROT information reveals capability data the unauthorized disclosure of which can reasonably be expected to result in nullifying the effectiveness of systems important to national security (para 2-301.c.5).
